Dear Ernest:

This is to verify your reception of KRPX, February 9, 1981, during equipment testing which was done at the request of the National Radio Club. Arrangements for the test were made by Neil G. Zank, Lincoln, Nebraska.

We appreciate your interest in logging our station and the excellent report you mailed to us on your reception of KRPX.

Since many sending in reports requested station rate cards, and/or bumper stickers, we have taken the liberty of including them with our reply.

You may be interested to know that KRPX is Utah's first 2500 watt AM radio station, and began regular broadcasting September 6, 1981.

Price is located in the heart of Utah's coal fields, and we anticipate considerable future growth in the area. Price is the county seat of Carbon County, which has a population of 22,100 according to the 1980 preliminary census.

Should your travels ever bring you to Price please pay us a visit at our studio, 163 East 1st North in Price.

Sincerely,

James M. Dart

James M. Dart, General Manager.
